[Our Endangered Earth](#) is a perfect **virtual or live** show to celebrate Earth Day in April or great anytime of the year. This outstanding show is inspiring and very entertaining, yet it covers the NYS environmental academic standards and goes way beyond. It's 40 minutes and good for 2<sup>nd</sup> grade up to 9<sup>th</sup>.

[Our Endangered Earth](#) will take your students on instant field trips across the world to learn about Earth's environmental cycles that keep our planet in a healthy balance for all of life. The show will also let your students observe how man is ruining Earth's environmental balance. Outstanding high definition video clips will help your students understand that Earth's health is in our hands.

Topics covered: air pollution from burning fossil fuels, acid rain, rainforest deforestation, species extinction, climate change, and the many ways man is destroying the ecology of our oceans. Your students will learn the science behind these problems and many easy solutions they can practice every day to help keep the Earth in balance.

My name is Lee Ognibene and I am a retired science teacher and videographer. (also former Director of Sayville Planetarium and 1998 Science Teacher of the Year in Suffolk County) After each of my shows, students and teachers comment that my show was awesome and was the best show they ever had at their school!

[Our Endangered Earth](#) includes activities your students can do at home and at school to become better citizens of Earth. Your students will realize how their everyday actions affect the environment and Earth's circle of life (ecology).

**If you book a VIRTUAL SHOW**, I will send you a link to my streaming service and a one-day password. Just click the link, put in the password and enjoy the show on a laptop, tablet, or your smartboard with your class. If you don't have the latter devices, project the show on a screen in your classroom, cafeteria or media center with a video projector and stream it with a laptop computer using your schools' Wi-Fi. **Best of all, distance-learning students can see the show at home during school hours!**

**Price: \$350 for one-day Virtual Show for the WHOLE School!** Every class can stream the show on that day at all different times! It's a bargain!

**If you book a LIVE SHOW**, I will come to your school and present a live show using my own quality equipment. **Same Price: \$350 for one live 45 minute showing at your school.**

**All my shows are approved by all 3 Long Island BOCES Arts in Education programs. They are listed in the online BOCES Arts in Ed catalogs under "Exploratory Enrichment". To find Our Endangered Earth in the online catalog, search keywords "Our Endangered Earth", "environment" or just search "Ognibene" to find all of my shows.**

Check out my 5 other science shows on my website: [scienceroadshows.com](http://scienceroadshows.com)

**(The Space Roadshow, Dinosaurs, Rainforest Adventure, Bug Roadshow, & Under the Sea)**

All of these shows continue to receive rave reviews and are the best shows on Long Island!
